SATURDAY EVE., DEC. 1 1883.

The above number represents the circulation, each week of the DAILY and WEEKLY BULLETINS. Advertisers are invited to call and assure themselves of the truth of the statement, and they are requested to bear in mind that our rates for advertising are the lowest.

Dr. Geo. W. Bagley, the humorist, lecturer and correspondent, is dead at Richmond, Va., aged fifty-five years.

A TOBACCO fair will begin at Georgetown on Tuesday, December 4. Growers and manufacturers from other States are expected.

SECRETARY LINCOLN and his friends do not seem to be bothered much about the young man's presidential boom. That of Conkling seems to have been mislaid.

JUSTICE HARLAN's grand effort in behalf of the civil rights of the colored man may have been well meant, but is thrown away; the watermelon season continues in full vigor in Florida.

AN open letter from a convict named Robert Daniels, addressed to Governor Knott, claims that a man named Armstrong and his two sons, who are in prison for the murder of man named Swiney in Todd county, are innocent, and that the killing was done by himself and Ashby Shearfield.

THE Department of Agriculture, at Washington, reports that the corn crop of the country is about 1,600,000,000 bushels. The product is about 40,000,000 bushels short of the previous crop, notwithstanding the increase of area. This is the third succession below an average yield following six successive crops above an average yield.

LAST year there were five cases of small-pox in one locality near Washington, but by the prompt action of the county authorities in isolating the cases, the disease was speedily stamped out and no deaths occurred. Mason is one of the counties referred to in the publication by the State Board of Health, printed elsewhere, and which every citizen should read.

THE talk we hear of depriving the poor people of their incomes by dispensing with the hog in Maysville is all nonsense. There is no income received from breeding hogs in the city, unless they are turned loose to plunder the town. In that case what they steal is the profit. On the contrary, if they are fed as they ought to be, at the owner's expense, the cost of feed is greater than the hogs will bring when sold. This cannot be disputed, as it is the experience of everybody in the city who has tried it.

THE postal note does not seem to grow in popular favor, and even its friends admit that it has not met their expectations. Reports received from all sections are to the effect that as a substitute for the money order the postal note is a failure. The sales do not seem to increase, and people do not appear disposed to adopt the note for the transmission of money except where only a small amount of odd cents is involved. The sale of the postal note has thus far not decreased the use of the money orders, except in very rare instances.

SAYS the Harrisburg (Pa.) Patriot: Ohio has seen a spectre. It was long and gaunt and pale and solemn-looking, like a spectre ought to be. Ever since the Ohio election this spectre has been shrouded in impenetrable gloom. It made no sound. Its lips were frozen tight together by the cold weather that prevailed in the Buckeye State on the memorable tenth of last October. Suddenly the other day it walked out of the deep shade into the light of the popular gaze. It looked about with hollow eyes. Then the seal on its rigid lips was broken and it spoke. The voice, though hollow, was still familiar. It was recognized as that of Senator John Sherman, who had for an instant stepped forth from his seclusion to say that he and Justice Harlan, of the Supreme Court, are of the same mind on the late civil rights decision. Having delivered itself, the spectre's lips closed, the mists of gloom once again gathered around and it sunk back into the soundless depths of the night of unspeakable despair. Ta-ta, John.

Gleanings.
A color of cloth for coats is called "sugar." If the duds adopt it they will be sugar-coated pills.

A young lady of Anderson S. C., declined an offer of marriage on the ground that her father already had too large a family to support.

A Chicago philosopher has been asking what is the most generous of creatures. The oyster, of course. It shells out well and pans out delightfully.

The London Academy says that in little more than a year it will be able to verify a curious chronological prophecy of M. Renan, who said in January 1880, that "in twenty-five years, Oxford, transformed on the model of the German universities, will have become the most brilliant centre of Germanic culture in the world."

It is said when the effects of the late Mr. Marwood, the English executioner, were sold, the articles in which the least interest was manifested were a pair of his stockings. This appears somewhat singular, inasmuch as there were so many anxious to fill his shoes.

Precautions to use Against Small-Pox.

To the Local Boards of Health and the People of the State of Kentucky: The State Board of Health desires to call attention to the fact that small pox, in a severe and fatal form, is now prevailing in some sections of our own State, and in cities of adjoining States, so intimately connected with us by the lines of travel as to constantly threaten fresh introductions of the disease. Unless unusual precautions are taken by our city, town and county health authorities to prevent such importation and the spread of this disease the experience of last winter is likely to be repeated on a much larger scale.

This board, therefore, feels it to be its duty to warn the people that the decisive action should at once be taken to protect the State from this loathsome malady. Fortunately the method of prevention is as certain in its action as it is cheap and easy to obtain. Vaccination and re-vaccination, properly done, with reliable virus, is a certain prevention, and is entirely free from danger. This is the conclusion of the scientific world, after full investigation and large experience, and may be thoroughly relied upon.

Notwithstanding that this safe, cheap and perfect protection is within the reach of all, it is estimated that nearly one-third of the people of this State have never availed themselves of it. It is hoped that the next Legislature will make vaccination compulsory but intelligent persons should not wait for the law to force them to an evident duty. No one should allow himself, or any one for whom he is responsible, to remain unvaccinated at any time, and especially in the face of the present danger. Health and school boards, everywhere, should co-operate in requiring vaccination as a condition of admission to all schools, public and private, and the proprietors of manufactories and railroads should make the same requirements of their employees. The operation should always be done by a competent physician, at three points in the same arm and the person vaccinated should be seen by him from time to time that he may know that a perfect result has been secured. Imperfect vaccination can only give rise to a false and often fatal sense of security.

As a further precaution, the various health boards of the State, county and municipal, are requested to perfect their organizations, take every precaution to prevent the importation of the disease into the communities over which they have control, or, failing in this, be ready to stamp it out by strictly isolating the first case, and vaccinating and re-vaccinating every person endangered by it. It would be well for health boards in localities not provided with hospitals to have in view some suitable cottage which could be used as a hospital in case of emergency.

All carpets, curtains, stuffed furniture, clothing, and other articles not required for immediate use should be removed from rooms intended for use of persons affected with small-pox; and no person except the physician, nurse or parent, should be allowed to enter or go near the house, or touch any article used therein, until after thorough disinfection. The funerals of all persons dying of this disease should be strictly private. The same precautions should be observed in the management of scarlet fever, measles, diphtheria and other infectious diseases.

By the promptness and efficiency of several of the county boards the disease was effectually controlled in many localities last year. In other counties no such precautions were taken at the outset, and the disease was only checked after serious loss of life, great interference with business, from the panic incident to an epidemic of this disease, and an expenditure of money, which if judiciously used in systematic vaccination, beforehand, would have given perfect immunity to every citizen in the community. Here, as in many other things, an ounce of prevention is not only better but cheaper than a pound of cure.

In this and all other matters pertaining to the public health, the State Board holds itself in readiness to assist the local boards to the full extent of its powers; and all physicians of the State are requested to promptly notify this office, as well as their local boards, of the first outbreak of this or any other contagious disease in their respective communities. By order of the board.

J. N. McCORMACK, Secretary.
Bowling Green, Ky., Nov. 1883.

The following marriage licenses have been issued in Brown county, Ohio, since our last report:

Thomas A. Cornick and Molly Hicks, N. M. Ervin and Hester A. Pollitt, John McCann and Mary Lottie, Albert Beck and Saville Jane Furdin, James Hodgson and Jane Cribbitt.

Detroit Policeman Murdered.
DETROIT, Mich., Nov. 30.—Wednesday night, while policeman A. Bullard was looking for George Wilson, who was wanted for the theft of a barrel of oil, the latter shot the officer in the abdomen, using a double-barreled shot gun as a weapon. The officer died in a few minutes. Wilson has not yet been arrested.

Petroleum Traces in Iowa.
VINTON, Ia., Nov. 30.—Great excitement prevails here over the discovery of indications of large quantities of petroleum. Boring began Friday morning under the direction of several experienced oil men from Pittsburg and Oil City.

Old Man Missing.
HUNTINGTON, Ind., Nov. 30.—In Wells County, Mr. Gardner, aged eighty-three years, left his house Tuesday morning, and has not been seen since. A searching party was organized, but the hunt proved fruitless. It is feared that he has been foully dealt with, as no cause for his leaving can be given.

Escaped From Jail.
HALLETTSVILLE, Tex., Nov. 30.—Last night the prisoners confined in jail here effected their escape by cutting a hole through the roof. Three escaped, and none of them have been recaptured. One was waiting transportation to Huntsville under a life sentence for murder.

Alleged Fire Bug on Trial.
SIOUX FALLS, Dak., Nov. 30.—The examination is in progress of John T. and Peter McCaffrey, arrested last night on suspicion of having started the fire of November 6, which destroyed the Commercial Hotel and other property valued at \$100,000.

Canadian Disputes.
CHICAGO, Nov. 30.—Attorney General Miller, of Winnipeg, left here Friday morning for Toronto to confer with Attorney General Short in reference to the disputed boundary question.

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Itchings, Ringworms, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.
"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me. Yours respectfully, Mrs. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 75 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the Boston Herald, B. W. BALL, of Rochester, N.H., writes, June 7, 1882: "Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

BAD, BAD, BAD BLOOD.

Some blood is bad because it is poor and weak. Some is bad because it contains impurities. Some men have such bad blood that the wonder is it does not poison the mosquitoes who come to bite them. The rich red color of good blood is owing to the iron which is present. Blood which has not enough iron in it is always unsatisfactory. The persons in whose veins it circulates cannot be said to enjoy good health.

The efforts of expert chemists to produce a preparation of iron which can be assimilated with the blood have resulted in that perfect preparation which is an important part of Brown's Iron Bitters. It is the only one which freely enters into the blood. It is the only one which accomplishes the desired good.

Weak, poor, thin blood may be made rich and strong, and impure blood may be purified by the use of that Great Iron Medicine, *Brown's Iron Bitters*.
